The following questions have been submitted to the NCI OA for response. The answers to these questions are provided below. The deadline to submit questions is 2:00PM EDT, Friday, March 25, 2016. An amendment to RFP N02AT67007-C16 will follow with any remaining questions received by the stated deadline.

1. Question: Is this contract currently being held by another incumbent? (i.e. is this a contract already in-progress, approaching the end of term, etc.?)

Answer: The contract is currently held by an incumbent and is approaching the end of its term.

2. Question: Can you please specify the oncology indication?

Answer: There is no oncology indication. This is an NCCIH contact. Our website has additional information on our funding priorities as well as information on our currently funded research.

3. Question: Have the number of sites been pre-determined or does the contract include site selection?

Answer: This contact will provide monitoring of NCCIH-funded clinical studies. These studies are funded through the NIH extramural grant process. The number of studies funded is dependent on a number of factors and cannot be pre-determined. The site locations are dependent on work proposed by the study investigators, who are largely based in the US. NCCIH does fund some international studies, however, and therefore there must be an ability to monitor international studies.

4. Question: What are the geographic regions in the U.S. and abroad, if applicable? International is mentioned in the RFP.

Answer: Please see answer to question #3.

5. Question: RFP, Page 10 Article F.1. Period of Performance- please confirm the period of

performance is August 31, 2016 through August 30, 2017 with 4 Option Periods to extend through August 30, 2021 rather than August 30, 2022 as noted in this RFP section's table.  
Answer: The period of performance is August 31, 2016 through August 30, 2017 with 4 Option Periods to extend through August 30, 2021 if exercised.
